

SaiRen-FM Microcapsule

+ What is Sairen FM?

Sairen FM is a new intelligent pest repellent that has been developed to contain natural ingredients in microcapsules for longer repelling effects. Effective against pests, mice, ants, and cockroaches.

+ How it Works

This product uses intelligent microcapsules that can be used as external stimuli (friction, dry). This allows you to see the repelling effect of the product on a daily basis.

Which animal/pest does the product work the best on?

Main Ingredient
100% natural herbal extracts

01

Pests
(mosquitoes, ticks, etc.)

02

Rats

03

Ants

04

Cockroaches

+ Location

Sairen FM can be used in various ways. For example, it is effective in combating a variety of pests and harmful animals by [immersing or mixing the product with water-based paints or fabrics](#).

Duration

The product life may vary depending on the weather, but lasts on average one to two years.

How to Use with Paint

The product can only be used with water-based paints. The product should be 3-8% of the total paint volume.

When will the product start to work after using it with paint?

The repelling effect comes after the paint is completely dry.

How can I increase the effect?

After applying the first coat of paint, wait for it to dry completely, then apply a second coat.
