

SaiRen

Natural Removal Tool for Mosquito

Sairen utilizes natural essential oils to fight swarms of mosquitoes with even more powerful effects.

Natural essential oil

Natural fragrances

Sticker Type

Installation type

Sairen utilizes natural essential oils to fight swarms of mosquitoes with even more powerful effects.

Sairen is the only product in the world that uses natural high-quality fragrances with aromas familiar to humans, such as cinnamon and eucalyptus, to fundamentally block the access of mosquitoes.

+ 100% Natural Herbal Fragrances

Sairen is manufactured with 100% natural high-quality fragrances (eucalyptus, cinnamon, and other natural oils), not synthetic fragrances. These materials are **not harmful to the human body**, making this product an **eco-friendly product** that is safe to use even around precious children.

+ Safe and Economical

There is no risk of harm unlike with other one-time sprays, skin sprays, and fragrances. Sairen-M is economical because it has a sustaining effect that lasts for more than two weeks. The product is convenient as it is easy to carry and safe to use both inside and outside.

+ Multi-Purpose Product

The product is very effective at combating mosquitoes. You will see excellent repelling effects of mosquitoes at home, bringing you more peace and relaxation. The product is easy to attach, making it the ideal product to control mosquitoes when participating in outdoor activities such as camping, fishing, and traveling.

+ Major Installation areas of SAIREN

The product is easy to carry and can be installed in indoor and outdoor areas such as homes, toilets, fishing areas, hiking trails, baseball fields, concert areas, campsites, etc. to help repel mosquitoes.

Sairen Sticker Type

The product is beautifully designed to be used as an air freshener and for mosquito control and can be attached to small items, making it easy to wear no matter what outdoor activity the user is participating in.
