Sairen Reptile Removal Tool

+ What is SaiRen Reptile Removal Tool?

SaiRen Reptile Removal Tool is a directional product that uses aromas that reptiles dislike to cause **olfactory irritation and disturbance**, allowing the product to **block their access to the area**.

+ Product Features

+ How to Install

- 01** Visit the areas where you expect to see reptiles or where reptiles have actually appeared to identify intrusion routes.
- 02** Clean the area and block the path to their food and living spaces.
- 03** Install the product at 50 cm intervals as shown in the figure (refer to the Installation Example Image) at the point where the intrusion path is connected from the outside to the inside space.
- 04** If the reptile infestation continues to occur after the product has been installed, check the area again and adjust the installation interval or installation site to better suit the situation.

+ Installation

※ Install the product at **regular intervals (30-50 cm)** around the object that needs to be protected.
