**"Our area has been repeatedly damaged by wild boars every year. But after installing Sairen, I am very happy to report that we have had no damage to our crops!"**

Field tests from Pocheon Pear Farm prove the effect of the Removal Tool!

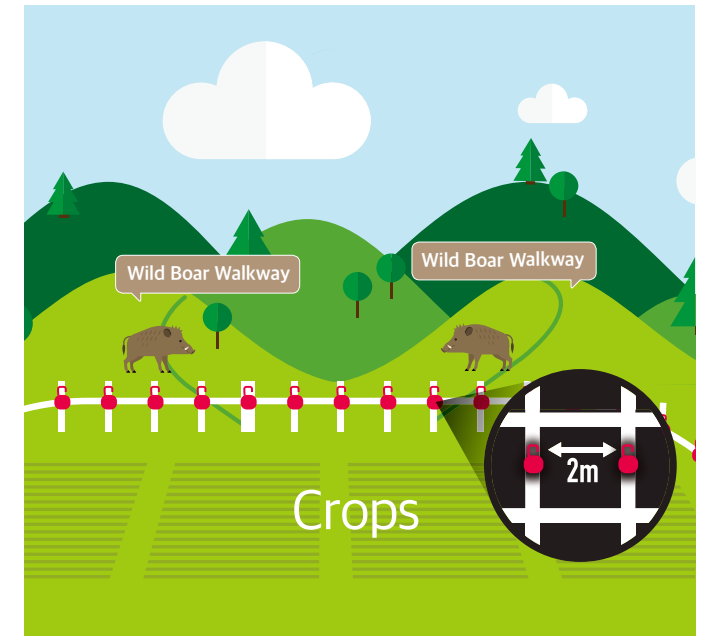

## + How to Install the Product

### Wild Boar Walkway

Install the product on a separate support (such as a tree branch) around the existing wild boar entrance passage.

### Edge of Crops

Install the product at intervals of 2 m around the edge of the crops where wild boars are expected to approach.  
(We recommend installing a separate support or fence)
